# IFLR 1000

October 1<sup>st</sup> 2009

Dear reader,

**This is your complimentary copy of the 2010 edition of the *IFLR1000*, the guide to the world's leading financial law firms.**

Now in its 20<sup>th</sup> annual edition, the *IFLR1000* recommends only the best law firms advising on corporate finance in more than 100 countries.

No other international guide has the *IFLR1000*'s resources, contacts and depth of market knowledge. Our team of full-time specialised journalists in New York, London and Hong Kong draws on the expertise and editorial content of Euromoney's market-leading legal titles, including *International Financial Law Review* and the *Expert Guides* series.

Law firms cannot pay to be recommended in the *IFLR1000*. Recommendations are made on the basis of face-to-face and telephone interviews with leading in-house counsel and private-practice lawyers. The highest-ranked firms are those perceived by clients and competitors to be strongest in terms of their capacity for innovation; their ability to advise on complex, cross-border deals; and the quality of their client service – not simply those with the most or biggest deals.

The *IFLR1000* is not a guide to every law firm worldwide. The guide ranks only corporate and financial law firms at the top of their profession in over 100 jurisdictions, and identifies the individual lawyers with the best track records for advising in each practice area. Law firms may, however, include a paid profile including their logo and contact details – these are clearly indicated by a dark blue strip along the edge of the page.

This is also available online, free of charge, on our fully searchable website at [www.iflr1000.com](http://www.iflr1000.com). The website has been updated this year and contains five regional analyses, extra firm-by-firm analysis in selected countries and archived rankings and editorial back to 2005.

If you require any further information, feel free to get in touch with me directly.

Yours faithfully,

**Lukas Becker**
